

First you must select the label you want to print for Receiving (inbound) or Shipping (outbound)

Inventory Pro for Windows:

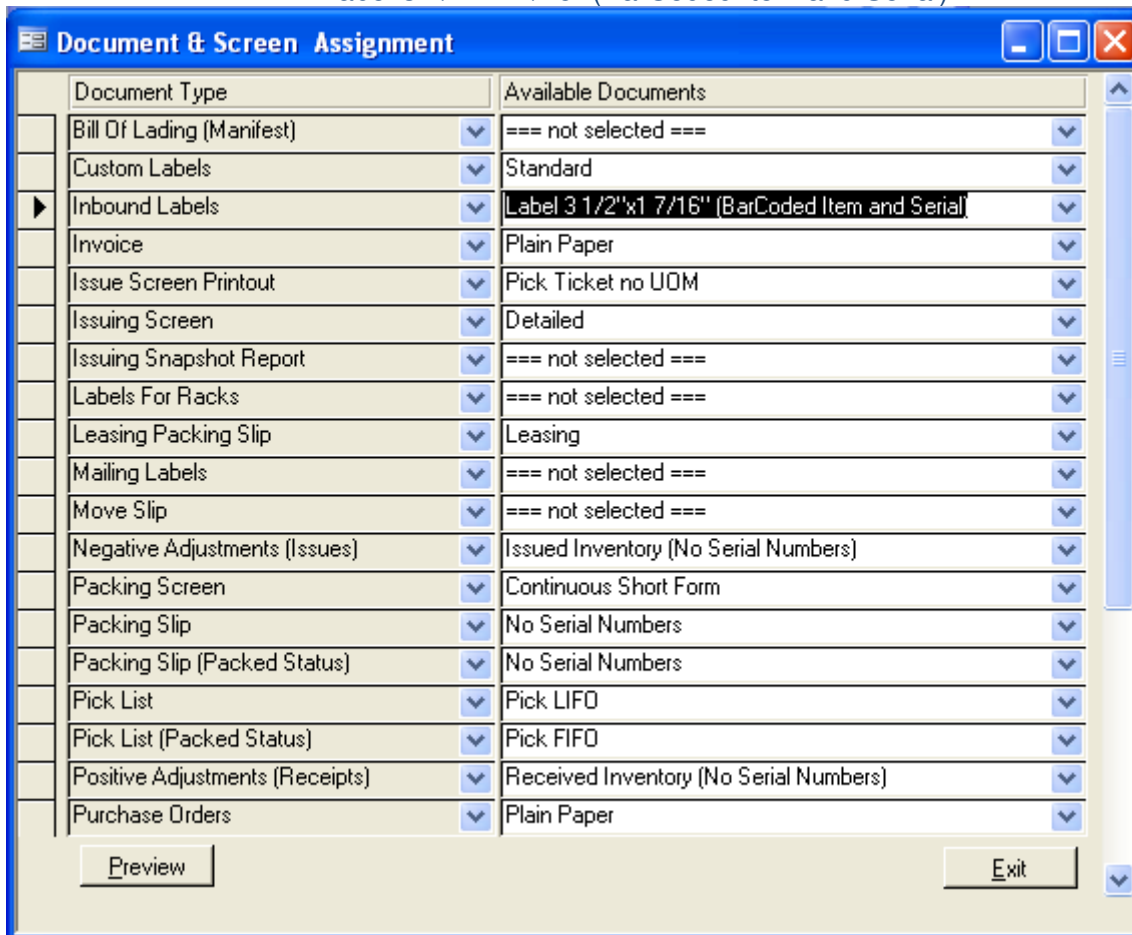

Go to the SYSTEM menu

then ADMINISTRATIVE TOOLS

select DOCUMENTS ASSIGNMENT

then pick an inbound and shipping label that has a barcode on it like:

Label 3 1/2"x1 7/16" (BarCoded Item and Serial)

Note that some labels barcode the item and/or serial number (some labels have no barcodes!)

Printing barcodes at receiving time:

-After all the receiving screen fields are populated with:

Items

number of units

serial numbers,

....click the "Labels" button at the bottom of the screen.

[Inventory Pro Online:](#)

Upon the completion of any Direct Receive within Inventory Pro Online you are brought to a screen similar to figure 1 shown below.

Clicking the labels button will export a label displaying the information that was on each line of the receive grid. Each page is a single label, and can be printed individually or altogether.
